### **Previous Rejections**

All previous rejections are withdrawn.

Claims 32-48 are allowable as presently advised. The examiner agrees with the comments made in Applicant's response substantially as written, and notes that he has considered the Rule 132 Declaration filed April 28, 2003, and finds same as further persuasive of patentability. (The examiner thanks Applicant's representative for pointing out this Declaration in a polite and professional manner).

The examiner attempted to resolve the issues discussed infra via telephone, but Applicant's representative was on vacation. Upon correcting those issues, all claims will be allowable.

### **New Matter Rejection**

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 49 and 50 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one

Art Unit: 1614

skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 49 and 50, fifth line of each, there is no support in the specification as originally filed for a “dispensing” agent. (The specification supports a “dispersing” agent; perhaps this is the result of a typographical error).

### **Claim Informalities and Suggested Corrections**

The following informalities are noted. While not indefinite *per se*, these informalities should be corrected in order to place the claims in better form for allowance. Specifically:

1) Claim 48, second line, the recitation “at least” is superfluous and should be deleted.

2) Claim 50, first line, the phrase “for sustained releasing” is awkward and cumbersome. The examiner recommends replacing same with the term --- administering - -- instead, and then inserting at the third line of the claim, immediately before the word “fine”, the phrase --- sustained release preparation comprising ---

**Action is Final, Necessitated by Amendment**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
